Subject: WD DW Branch Mid-Year PARS

Nonresponsive based on revised scope

Nonresponsive based on revised scope

- **UIC Tribal Consultation:** The Underground Injection Control is actively engaging with tribes interested in permitting activities in Virginia and Pennsylvania. WD has been working closely with OCTEA to develop and implement procedures to provide meaningful consultation through prior outreach and identifying areas that tribes are interested in consultation. The Seneca Nation original proposed consultation on all projects in the Allegheny watershed. OCTEA held a call with the Seneca Nation and narrowed the scope of interest to disposal wells in the headwaters of the Allegheny. This will greatly reduce the scope of consultation required
